Ophelia: Week 2, Day 4 - Tools

Tools

- Tools - allows frontier models to connect with external functions

1. For Richer responses by extending knowledge
2. Ability to carry out actions within the application
3. Enhanced capabilities like Calculations

Tool Calling

- LLMs outputs / produces tokens

- Tool calling in theory means An LLM decides to run code on my computer
- In practice, Code calls an LLM for a response and the LLM directs the code to call a tool. The code calls the tool and have a conversation history of the conversation to the LLM which now acts on the history of the conversation to respond to the Code.

Uses of Tools

1. Fetching data or adding knowledge or Context
2. Taking action, like booking a Meeting
3. Perform Calculations or run code
4. Modifying the UI
